## Welcome

IWA Young Water Professionals Conference is returning for a 17th year in March 2016.

The event continues to be **ambitious**, hosting a larger and more diverse audience this year than ever before. Attendees include representatives from water companies, regulators, contractors and researchers.

**Inspiring guest speakers** and young professionals will discuss the global issues affecting our industry, highlighting new innovative ideas and the latest research on sustainable development.

There will also be a strong focus on **networking** and **Continued Professional Development** (CPD), allowing people who are new to our industry a chance to build strong professional connections and learn from those with more experience.

## Thank You to our Supporters

**Lord Mayor of Norwich Councillor Brenda Arthur**

Speeches and activities hosted by **WaterAid**

# University of East Anglia

The University of East Anglia is ranked in the **top 1%** of universities in the world and in the latest Research Excellence Framework, with **more than 82%** of UEA research being classified either **world-leading or internationally excellent**.

The university is also a leading member of Norwich Research Park, one of Europe's biggest concentrations of researchers in the fields of environment, health and plant science.

UEA continues to lead the way in research for a sustainable future and, as such, is a perfect location for this year's conference.

The campus is located in 320 acres of parkland, within easy distance of Norwich city centre.

# Norwich

## A historic city

In the 11<sup>th</sup> Century, Norwich was the largest city in England after London, and this rich heritage can be seen right across the city in its stunning old buildings and cobbled streets.

In more recent times, this university city has become one of the most vibrant cities in Europe, and is a hotbed for the arts, culture, music, nightlife and tourism. Lining the cobbled streets are independent shops, restaurants and bars and it's a great place for a night out!

## Drinks Reception

### The Assembly House

This year's drinks reception will be held at the prestigious Assembly House in Norwich city centre.

This Georgian building has an illustrious history, including hosting a commemorative ball for Admiral Nelson's famous victory at Trafalgar in 1805.

Guests will enjoy a glass of bubbly and canapés while networking with colleagues, peers and friends. The venue is in the centre of the city, so guests will have the opportunity to carry on the evening in Norwich's many restaurants, bars and pubs.

Speakers on the evening:

**Lord Mayor of Norwich Councillor Brenda Arthur**  
**Anglian Water Group Director of Corporate Affairs, Mark Pendlington**

## Gala Dinner

### St. Andrew's Hall

in support of

**WaterAid**

Enjoy a delicious 3-course meal in a beautiful and historic setting, right in the heart of the city.

St. Andrew's Hall is the centerpiece of the most complete medieval friary complex in the country. With beamed ceilings, stained glass windows and limestone columns it is a stunning setting for our gala dinner event.

The evening will begin with a welcome drink at the neighbouring Blackfriars Hall, and will include fantastic food and entertainment throughout the evening, all in support of WaterAid.
